# Price Book Set Up Instructions

BSI's **Heil Home Comfort Flat Rate Installation Price Book** is designed to help our Heil Dealers outperform the competition with a “customized-to-your-business” replacement installation “*Upfront*” consumer pricing guide.

We designed the price book to be used by both *Comfort Advisors* on a replacement sales call or for the *Selling Technicians* on a service call where they have identified a replacement opportunity.

## **Formatted for Easy Upselling:**

The proven price book format has proven to help you to easily upsell via the “good-better-best-premium” system consumer installation pricing options.

## **Easy 1-Page Price Book Set-up:**

Located on this web page, as well as, at end of this demo price book you will find the 1-page Set-up/Order Form. On this Form you provide us your unique labor costs, gross profit margin, finance rates, and your local utility rates.

## **Set-up of Installation Cost-of-Goods-Sold:**

You provide us your preferred equipment vendor pricing from your vendor which we import your actual costs for equipment, materials, and warranties by system type and size.

We multiply by your provided labor cost rates by the “built-in” installation labor hours for a Crew Chief and Helper to arrive at your *Total Installation Labor Cost*. You may modify the “built-in” labor hours for any system configuration by faxing us your changes via marked up *User Guide* pages also located on this [www.GrowMyHVAC.com](http://www.GrowMyHVAC.com) page.

## **Your Unique Installed Sell Price:**

Your unique Installed Sell Price will be based on your provided gross profit margin rate.

## **Finance and Energy Savings Tables:**

We provide finance and energy savings tables to help the Comfort Advisor to show consumer affordability of a system installation. We create your finance tables using your unique local finance options and national *Home Equity Rates, Personal Bank Loan Rates*. We create your energy savings tables using your provided local area utility rates.

## **Customizing Configurations:**

If your configuration are different from or is missing any system type versus this demo price book, we provide three easy ways for you to quickly communicate your unique price book configuration requirements:

1. For minor modifications, simply print the demo book price pages and mark them up with your equipment component match-ups and desired warranty offering and fax them back to us.
2. For extensive modifications, we can send you an Excel spreadsheet as an email attachment that you email back to us with your unique equipment configuration component match-ups.
3. Or you can simply set up with us a telephone or on-line GoToMeeting workout session to assist in expediting setting up of your price book.

## Configuration Options:

This price book may be modified to include any or all of these common residential HVAC replacement configurations:

- Split System Gas Heat
- Split System Electric Heat
- Split System Cooling Only
- Split Heat Pump
- Split Dual Fuel Heat Pump
- Geothermal Heat Pump
- Packaged Gas Heat
- Packaged Heat Pump
- Packaged Dual Fuel
- Furnace Only – Gas/Oil/Propane
- Boiler Gas/Oil/Propane
- System Enhancements/Accessories

## Prices Shown are Illustrative Only

- This “demo” price book was designed for demonstration purposes only.
- **The pricing shown is for a fictitious contractor and climate zone, and is not meant to be representative to local area pricing.**
- Your pricing will be accurate to your business based on your unique local area labor costs, unique overhead and net profit set-up requirements, local financing options, and your energy savings tables according to your climate zone.

# The Home Comfort Certified System

## 7 Step Approach

1. Conducting the Home Use and Livability Survey to assure your personal, technical, and timing objectives are met.
 

↓
2. Conducting Manual J heat gain/loss measurement to right-size capacity of replacement equipment and duct distribution system installation.
 

↓
3. Analyzing data gathered to insure proper equipment sizing and inclusion of any accessories to meet your special requirements.
 

↓
4. Sitting down with you to explore their installation and purchase options.
 

↓
5. Back up all of our work with unsurpassed written Install-Right guarantees, warranties, and assurances.
 

↓
6. Organize, educate, train, and schedule installation personnel and manage your installation requirements.
 

↓
7. Precision tune and implement a warranty management system and 24/7 4-hour or less emergency response

## Why we set the Standards of Performance

- 90% of all installations have problems resulting in unnecessary energy inefficiencies due to:
  - Too large or too small equipment sizing
  - Improper match between condenser and evaporator
  - Improper duct sizing or distribution
  - Improper duct insulation or sealing
  - Leaking or disconnected duct work or diffusers
  - Improper system balancing
  - Improper system charging and calibration
- 40% of all installations fail to meet air flow requirements resulting in poor indoor comfort due to:
  - Improper sized equipment
  - Improper duct distribution design
  - Improper diffuser type or location
  - Leaking or disconnected ducts & diffusers
  - Improper system balancing
- 50% of all installations are not charged properly resulting in up to 50% higher operating cost due to:
  - Improper start-up, test, and installation verification per manufactures specifications and industry best practices
  - Untrained installation personnel
  - Poor contractor installation methods

# Quality Installations by Design

## Pre-installation:

1. Our proven Home Use & Livability Survey data gathering techniques enable us to provide our customers with unconditional performance guarantees
2. Our computer Manual J home load modeling guarantees that heating, cooling and comfort capacities will be met.
3. Our equipment/system selection process guarantees that both your personal and your home aesthetics requirements are met
4. We select the most appropriate installation implementation process that guarantees our customers the lowest possible installation costs.
6. We specialize in working in occupied spaces and know the challenges, keep work areas clean, and actively plan our work methods to minimize any possible disruption.
7. We verify and test all work completion to guarantee that all was installed to specification and to best industry standards.
8. Our in-depth operator training guarantees that you will maximize your investment.

## Post Installation:

5. We will assign a installation team will take care of everything, manage everything, and be totally responsible for everything.
9. Our installations are installed per industry best practice, which has continuously proven to reduce emergency or trouble calls. However, when one does occur, you will receive our highest priority response. We respond to emergency service or trouble calls even during peak periods within four (4) hours or less of your call.
